 Impact

Dear Jidan Huang,

Congratulations! Your article, [Supply and demand prediction analysis of urban gas energy in China: A new method using WOA–Grey Markov](#), has been published in Energy Sources, Part B: Economics, Planning, and Policy, Volume 21, Issue 1, and is now available for you to access via Taylor & Francis Online.

We're proud to have been part of your publishing journey. Your hard work and dedication have brought this research to life, and now it's ready for readers everywhere to discover and be inspired by your ideas.

Keep the momentum going

Continue to keep your research visible by sharing updates, insights, and discussions inspired by your work.

Highlight your publication wherever your professional presence lives in your [email signature](#), on your department webpage, or across your academic and social media profiles. Consistent visibility keeps your work front of mind for readers, collaborators, and future citations.

When sharing your work, use your free eprint link to provide readers with instant access to your article (valid for up to 50 uses). As an author with Taylor & Francis, you and your co-authors each receive 50 free online copies to share with your networks. Your personalized ePrint link is ready to use:
